Objective

A dedicated and motivated Computer Science and Engineering student with a strong foundation in web development. Seeking opportunities to contribute to innovative projects while enhancing technical expertise.

Education | Duration: 2022 – 2026

Bachelor of Science in Computer Science and Engineering
International Islamic University Chittagong, Bangladesh

Professional Experience

Trainee Software Engineer, mPair Technologies Ltd., Chittagong | September 2025 – April 2026

- Expanded into backend development using **TypeScript**, building models and controllers for the Emventory inventory system.
- Contributed to **POS** module development and handled design modifications to improve usability.
- Assisted with **cPanel** deployment of the application to production environments.

Front-End Developer Intern, mPair Technologies Ltd., Chittagong | May 2025 – August 2025

- Led the initial project structure setup for Emventory, an in-house SaaS inventory management system, using **React 18, Vite**, and **Tailwind CSS**.
- Integrated **GraphQL APIs** via Apollo Client and built responsive UI components using **Material-UI** and Tailwind CSS.
- Worked on the **POS** interface and iterative design improvements throughout the project.

Technical Skills

Programming Languages: C++, JavaScript, TypeScript, PHP, Python
Frameworks & Tools: React, Vite, Apollo Client, Material-UI, Tailwind CSS, Node.js, Express.js, Firebase, MongoDB
Web Development: HTML5, CSS3, JavaScript, ReactJS, PHP
Database Management: MySQL, MongoDB
Tools: VS Code, Git, GitHub, cPanel
Soft Skills: Active Listening, Quick Learning, Teamwork, Adaptability, Flexibility
Problem-Solving Skills: Codeforces | Solved 82 problems on Codeforces

Projects

CareMeds | Live Site | GitHub Repository

Type: Multi-Vendor Medicine Selling E-commerce Platform | Time Period:5-6 days
Key Features:

- **Multi-Vendor Support:** Sellers can register, list medicines, and manage inventory.
- **Medicine Categories & Search:** Users can browse medicines by category and use search filters.
- **Secure Payment System:** Integrated Stripe for secure transactions.
- **User,Seller & Admin Dashboards:** Personalized dashboards for users, sellers, and admin management.

Technologies Used: React, Tailwind CSS, Node.js, Express.js, MongoDB, Firebase

BistroBoard | Live Site | GitHub Repository

Type: Functional Restaurant Management Platform | Time Period: 4–5 days
Key Features:

- **Gallery Page:** Displayed high-quality food images with an interactive lightbox.
- **Order Management:** Allowed users to view, delete, and update orders dynamically.
- **Dynamic Data Handling:** Real-time data fetching and rendering using MongoDB and REST APIs.

Technologies Used: React, Tailwind CSS, Node.js, Express.js, MongoDB, Firebase

Sportify | Live Site | GitHub Repository

Type: Sports Equipment E-commerce Platform | Time Period: 3-4 days
Key Features:

- **Extensive Equipment Database:** Browse a wide range of high-quality sports equipment with detailed product descriptions and high-resolution images.
- **User-Friendly Profile Management:** Sign up seamlessly.

Technologies Used: React, Tailwind CSS, Node.js, Express.js, Firebase, MongoDB

Languages: Bengali (Native), English (Proficient in writing, conversational in speaking)
